Career Summary

I, Engin Mardin, am a yacht broker with since 2011; working actively as an owner and manager at Vento Yachting. I have started my career, working at Beko Electronics as intern for 7 months in export department. After I graduated from Economics Department in University, I applied to Mazars-Denge Independent Audit Company. There, I gained the tools to run a business such as accounting, decision making, taxation and formation of a business. I quit my job there to proceed with my career in Audit field, and aimed to enter in Yachting industry by starting to work in Istanbul Bureau of Shipping and Survey (IBSS) as a springboard. During the period that I was employed by IBSS, I established Vento Yachting Ltd. Company with 2 other partners and entered in the business of Bare Boat Yacht Charter & 2nd Hand Yacht Sales and Purchase & Yacht service business. In the end of 2015, we decided to separate our ways; which is why I have established Engin Mardin Vento Yachting- private company to continue service as Charter & 2nd hand yacht Broker. I focused on yacht surveying and took the course of Practical Yacht and Small Craft Surveying Course at Ipswich Fox's Boat Yard in 2018. I performed pre purchase and limited surveys and applied IIMS (International Institute of Marine Survey) and became affiliated member at that time. As of today, I am currently providing service to my portfolio for needs of secondhand yacht brokerage and yacht surveying service as an associated member of IIMS.

Statement Of Purpose

I am experienced in Class and Statutory Flag survey certification for ships, I have focused very closely on Bare Boat Sailing Charter and 2nd Hand Yacht Brokerage business in Turkey. I also engaged in Jeanneau Yacht Service point by two years. I am performing yacht surveying.

My purpose is to provide a reliable and sustainable service to my clients on yacht brokerage, surveying and charter demands.
